Closeout Letter  
2018 Report Year

Dear Mr. Perez:

FTA is closing the 2018 National Transit Database (NTD) Urban Report Year. FTA accepts your 2018 report and any data revisions for the database.

Our review of your Independent Auditor's Statement for Financial Data (IAS-FD) for Report Year (RY) 2018 indicates that your financial statements and reporting forms conform with the NTD Uniform System of Accounts. Your Chief Executive Officer must certify annually that you are still using the accounting and reporting system reviewed by the Independent Auditor for RY 2018. Please note that you must submit a new IAS-FD in RY 2028, unless FTA notifies you otherwise. If you make a change to your system of accounts and records before 2028, you must submit a new IAS-FD.

If you have any questions, please contact **Jonathan Monceaux**, your Validation Analyst, at 434 214 0390. We appreciate your efforts in reporting to the National Transit Database and value your contributions to a useful and accurate database for all users. We look forward to working with you in the next report year.

Sincerely,

Maggie Schilling  
NTD Program Manager

### Federal Funding Allocation Data

*The following data elements are used in the apportionment of Federal funds for the Urbanized Area Formula Program, the State of Good Repair Program, and the Bus and Bus Facilities Program: fixed guideway directional route miles, high intensity bus directional route miles, passenger miles traveled (for Full Reporters), actual vehicle revenue hours, actual vehicle revenue miles, operating costs, and unlinked passenger trips. Please verify the following statements regarding these data submissions:*

- (A) A system is in place for recording these data in accordance with FTA definitions. This system records complete data without systematic errors in data definitions or in comprehensive coverage.
- (B) Data gathering is an ongoing effort and is collected on a continuing basis throughout the year.
- (C) Source documents are available to support the reported data and will be maintained for at least three years. The source documents are reviewed and signed by a supervisor, as required.
- (D) A system of internal controls is in place to ensure the accuracy of the data collected and reported to the NTD. Documents are reviewed and signed by a supervisor, as required.
- (E) Data collection methods for these data are those suggested by FTA or equivalent.
- (F) FTA standards for precision and accuracy in these data have been satisfied. The sampling technique for passenger miles traveled has either been approved by FTA, or has been determined to conform to FTA requirements by a qualified statistician. The approved sampling technique for passenger miles traveled was followed as documented (for Full Reporters).
- (G) These data are consistent with prior reporting periods, and other facts known about transit agency operations.
